

Nasze przedszkolaki z grupy Stokrotki poznają literki wszystkimi zmysłami.

Im więcej zmysłów bierze udział w procesie poznania tym lepszy efekt edukacyjny.

Łączenie dotyku, obrazu i dźwięku to doskonałe ćwiczenie polisensoryczne.

Dzieci poprzez zabawę zdobywają niezbędne umiejętności przygotowujące je do nauki pisania i czytania.

Pisanie w kaszy, w mące, na piance do golenia, układanie liter z nasion, ze sznurka itp. rozwija koordynację wzrokowo- ruchową oraz rozwija motorykę małą.
